Limit states
Reliability-Based Risk Assessment in Coastal Projects: Case Study in Turkey. — Can Elmar Balas and Aysen Ergin; 128(2), 52-61 (2002).

Louisiana
Predicting Bed Scour on the Continental Shelf during Hurricane Andrew. — Timothy R. Keen and Scott M. Glenn; 128(6), 249-57 (2002).

Measurement
Estimating Boat-Wake-Induced Levee Erosion using Sediment Suspension Measurements. — Bernard O. Bauer, Mark S. Lorang, and Douglas J. Sherman; 128(4), 152-62 (2002).

Mixing
Effect of Wave Height on Cross-Shore Solute Mixing. — J. M. Pearson, I. Guymer, J. R. West, and L. E. Coates; 128(1), 10-20 (2002).

Models
Two-Equation Turbulence Models for Smooth Oscillatory Boundary Layers. — Ahmad Sana and Eng Ban Shuy; 128(1), 38-45 (2002).
Surf and Swash Zone Morphology Evolution Induced by Nonlinear Waves. — Theophanis V. Karambas and Christopher Koutitas; 128(3), 102-13 (2002).
Finite-Volume Models for Unidirectional, Nonlinear, Dispersive Waves. — Scott F. Bradford and Brett F. Sanders; 128(4), 173-82 (2002).

Morphology
Surf and Swash Zone Morphology Evolution Induced by Nonlinear Waves. — Theophanis V. Karambas and Christopher Koutitas; 128(3), 102-13 (2002).

Narrowband
Least Upper Bound Distribution for Nonlinear Wave Crests. — M. Aziz Tayfun and Jasem Al-Humoud; 128(4), 144-51 (2002).

Nearshore
Modeling Nearshore Bed Topography with Principal Oscillation Patterns. — Grzegorz Różyński and Henk Jansen; 128(5), 202-15 (2002).

Neural networks
Water Level Observations and Short-Term Predictions Including Meteorological Events for Entrance of Galveston Bay, Texas. — Daniel T. Cox, Philippe Tissot, and Patrick Michaud; 128(1), 21-9 (2002).
Analysis of Wave Directional Spreading Using Neural Networks. — M. C. Deo, D. S. Gondane, and V. Sanil Kumar; 128(1), 30-7 (2002).

Nonlinear response
Least Upper Bound Distribution for Nonlinear Wave Crests. — M. Aziz Tayfun and Jasem Al-Humoud; 128(4), 144-51 (2002).

Numerical models
Propagation of Water Waves over Rigid Rippled Beds. — Ching-Jer Huang and Chih-Ming Dong; 128(5), 190-201 (2002).
Predicting Bed Scour on the Continental Shelf during Hurricane Andrew. — Timothy R. Keen and Scott M. Glenn; 128(6), 249-57 (2002).

Ocean waves
Interaction of Waves and a Porous Tension Leg Platform. — Wen-Kuei Ker and Chung-Pan Lee; 128(2), 88-95 (2002).

Offshore pipelines
Numerical and Experimental Study of Offshore Pipeline Stability in Trench. — C. H. Jo, S. B. Lee, Y. S. Shin, S. G. Hong, and K. H. Min; 128(6), 258-70 (2002).

Open channels
Lagoon Restoration near Ephemeral River Mouth. — Howard H. Chang, Daniel Pearson, and Samir Tanious; 128(2), 79-87 (2002).

Oscillations
Two-Equation Turbulence Models for Smooth Oscillatory Boundary Layers. — Ahmad Sana and Eng Ban Shuy; 128(1), 38-45 (2002).
Modeling Nearshore Bed Topography with Principal Oscillation Patterns. — Grzegorz Różyński and Henk Jansen; 128(5), 202-15 (2002).

Oscillatory flow
Pickup from Rippled Beds in Oscillatory Flow. — John F. A. Sleath and S. Wallbridge; 128(6), 228-37 (2002).

Performance evaluation
Simulation Study of Container Terminal Performance. — Ki-Chan Nam, Kyu-Seok Kwak, and Myoung-Suk Yu; 128(3), 126-32 (2002).

Permeability
Diffraction by a Gap in an Infinite Permeable Breakwater. — M. K. Bowen and P. McIver; 128(1), 2-9 (2002).

Pore pressure
Simplified Solutions for Wave-Induced Response of Anisotropic Seabed. — Masatoshi Yuhi and Hajime Ishida; 128(1), 46-50 (2002).

Poroelasticity
Simplified Solutions for Wave-Induced Response of Anisotropic Seabed. — Masatoshi Yuhi and Hajime Ishida; 128(1), 46-50 (2002).

Porous materials
Interaction of Waves and a Porous Tension Leg Platform. — Wen-Kuei Ker and Chung-Pan Lee; 128(2), 88-95 (2002).

Prediction
Water Level Observations and Short-Term Predictions Including Meteorological Events for Entrance of Galveston Bay, Texas. — Daniel T. Cox, Philippe Tissot, and Patrick Michaud; 128(1), 21-9 (2002).

Pressure gages
Wave Pressure Gauge Analysis with Current. — Jane McKee Smith; 128(6), 271-5 (2002).

Probability distributions
Least Upper Bound Distribution for Nonlinear Wave Crests. — M. Aziz Tayfun and Jasem Al-Humoud; 128(4), 144-51 (2002).

Radiation
Interaction of Waves and a Porous Tension Leg Platform. — Wen-Kuei Ker and Chung-Pan Lee; 128(2), 88-95 (2002).

Reliability
Risk Assessment of some Revetments in Southwest Wales, United Kingdom. — Can Elmar Balas and Lale Balas; 128(5), 216-23 (2002).

Resonance
Interaction of Waves and a Porous Tension Leg Platform. — Wen-Kuei Ker and Chung-Pan Lee; 128(2), 88-95 (2002).

Revetments
Risk Assessment of some Revetments in Southwest Wales, United Kingdom. — Can Elmar Balas and Lale Balas; 128(5), 216-23 (2002).

Risk analysis
Reliability-Based Risk Assessment in Coastal Projects: Case Study in Turkey. — Can Elmar Balas and Aysen Ergin; 128(2), 52-61 (2002).

Risk management
Risk Assessment of some Revetments in Southwest Wales, United Kingdom. — Can Elmar Balas and Lale Balas; 128(5), 216-23 (2002).

Rivers
Lagoon Restoration near Ephemeral River Mouth. — Howard H. Chang, Daniel Pearson, and Samir Tanious; 128(2), 79-87 (2002).

Rubble-mound breakwaters
Reliability-Based Risk Assessment in Coastal Projects: Case Study in Turkey. — Can Elmar Balas and Aysen Ergin; 128(2), 52-61 (2002).

Sand transport
Sand Suspension and Transport on Equilibrium Beach. — Nobuhisa Kobayashi and Yukiko Tega; 128(6), 238-48 (2002).

Scour
Predicting Bed Scour on the Continental Shelf during Hurricane Andrew. — Timothy R. Keen and Scott M. Glenn; 128(6), 249-57 (2002).

Sea floor
Simplified Solutions for Wave-Induced Response of Anisotropic Seabed. — Masatoshi Yuhi and Hajime Ishida; 128(1), 46-50 (2002).
Analytical Model for Response of Seabed beneath Composite Breakwater to Wave. — Takahiro Kumagai and Mostafa A. Foda; 128(2), 62-71 (2002).
Modeling Nearshore Bed Topography with Principal Oscillation Patterns. — Grzegorz Różyński and Henk Jansen; 128(5), 202-15 (2002).

Sea water
Detection of Breaking in a Deep Water Wave Record. — Charles-Alexandre Zimmermann and Richard Seymour; 128(2), 72-8 (2002).

Seasonal variations
Modeling Winter Circulation in Lake Okeechobee, Florida. — Kang-Ren Jin, Zhen-Gang Ji, and John H. Hamrick; 128(3), 114-25 (2002).

Sediment suspension
Estimating Boat-Wake-Induced Levee Erosion using Sediment Suspension Measurements. — Bernard O. Bauer, Mark S. Lorang, and Douglas J. Sherman; 128(4), 152-62 (2002).

Sediment transport
Surf and Swash Zone Morphology Evolution Induced by Nonlinear Waves. — Theophanis V. Karambas and Christopher Koutitas; 128(3), 102-13 (2002).
Pickup from Rippled Beds in Oscillatory Flow. — John F. A. Sleath and S. Wallbridge; 128(6), 228-37 (2002).

Sedimentation
Lagoon Restoration near Ephemeral River Mouth. — Howard H. Chang, Daniel Pearson, and Samir Tanious; 128(2), 79-87 (2002).

Predicting Bed Scour on the Continental Shelf during Hurricane Andrew. — Timothy R. Keen and Scott M. Glenn; 128(6), 249-57 (2002).

Shallow water

Near-Field Behavior of Dredging Spill in Shallow Water. — J. C. Winterwerp; 128(2), 96-8 (2002).

Shear stress

Two-Equation Turbulence Models for Smooth Oscillatory Boundary Layers. — Ahmad Sana and Eng Ban Shuy; 128(1), 38-45 (2002).

Ship motion

Estimating Boat-Wake-Induced Levee Erosion using Sediment Suspension Measurements. — Bernard O. Bauer, Mark S. Lorang, and Douglas J. Sherman; 128(4), 152-62 (2002).

Simulation

Simulation Study of Container Terminal Performance. — Ki-Chan Nam, Kyu-Seok Kwak, and Myoung-Suk Yu; 128(3), 126-32 (2002).

Finite-Volume Models for Unidirectional, Nonlinear, Dispersive Waves. — Scott F. Bradford and Brett F. Sanders; 128(4), 173-82 (2002).

Numerical and Experimental Study of Offshore Pipeline Stability in Trench. — C. H. Jo, S. B. Lee, Y. S. Shin, S. G. Hong, and K. H. Min; 128(6), 258-70 (2002).

Skewness

Least Upper Bound Distribution for Nonlinear Wave Crests. — M. Aziz Tayfun and Jasem Al-Humoud; 128(4), 144-51 (2002).

Solutes

Effect of Wave Height on Cross-Shore Solute Mixing. — J. M. Pearson, I. Guymer, J. R. West, and L. E. Coates; 128(1), 10-20 (2002).

Spills

Near-Field Behavior of Dredging Spill in Shallow Water. — J. C. Winterwerp; 128(2), 96-8 (2002).

Stabilization

Numerical and Experimental Study of Offshore Pipeline Stability in Trench. — C. H. Jo, S. B. Lee, Y. S. Shin, S. G. Hong, and K. H. Min; 128(6), 258-70 (2002).

Statistics

Least Upper Bound Distribution for Nonlinear Wave Crests. — M. Aziz Tayfun and Jasem Al-Humoud; 128(4), 144-51 (2002).

Stones

Berm Breakwaters: Stone Breaking Strength. — Alf Tørum, Stein R. Krogh, and Svein Fjeld; 128(4), 163-72 (2002).

Storm surges

Water Level Observations and Short-Term Predictions Including Meteorological Events for Entrance of Galveston Bay, Texas. — Daniel T. Cox, Philippe Tissot, and Patrick Michaud; 128(1), 21-9 (2002).

Strength

Berm Breakwaters: Stone Breaking Strength. — Alf Tørum, Stein R. Krogh, and Svein Fjeld; 128(4), 163-72 (2002).

Surf zone

Surf and Swash Zone Morphology Evolution Induced by Nonlinear Waves. — Theophanis V. Karambas and Christopher Koutitas; 128(3), 102-13 (2002).

Sand Suspension and Transport on Equilibrium Beach. — Nobuhisa Kobayashi and Yukiko Tega; 128(6), 238-48 (2002).

Surges

Interaction of Waves and a Porous Tension Leg Platform. — Wen-Kuei Ker and Chung-Pan Lee; 128(2), 88-95 (2002).

Suspension

Sand Suspension and Transport on Equilibrium Beach. — Nobuhisa Kobayashi and Yukiko Tega; 128(6), 238-48 (2002).

Tension leg platforms

Interaction of Waves and a Porous Tension Leg Platform. — Wen-Kuei Ker and Chung-Pan Lee; 128(2), 88-95 (2002).

Texas

Water Level Observations and Short-Term Predictions Including Meteorological Events for Entrance of Galveston Bay, Texas. — Daniel T. Cox, Philippe Tissot, and Patrick Michaud; 128(1), 21-9 (2002).

Theories

Experimental and Theoretical Analyses of Internal Waves of Finite Amplitude. — Motohiko Umeyama; 128(3), 133-41 (2002).

Tides

Water Level Observations and Short-Term Predictions Including Meteorological Events for Entrance of Galveston Bay, Texas. — Daniel T. Cox, Philippe Tissot, and Patrick Michaud; 128(1), 21-9 (2002).

Topography

Modeling Nearshore Bed Topography with Principal Oscillation Patterns. — Grzegorz Różyński and Henk Jansen; 128(5), 202-15 (2002).

Transport rate

Pickup from Rippled Beds in Oscillatory Flow. — John F. A. Sleath and S. Wallbridge; 128(6), 228-37 (2002).

Trenches

Numerical and Experimental Study of Offshore Pipeline Stability in Trench. — C. H. Jo, S. B. Lee, Y. S. Shin, S. G. Hong, and K. H. Min; 128(6), 258-70 (2002).

Turbulence

Two-Equation Turbulence Models for Smooth Oscillatory Boundary Layers. — Ahmad Sana and Eng Ban Shuy; 128(1), 38-45 (2002).

Turkey

Reliability-Based Risk Assessment in Coastal Projects: Case Study in Turkey. — Can Elmar Balas and Aysen Ergin; 128(2), 52-61 (2002).

United Kingdom

Effect of Wave Height on Cross-Shore Solute Mixing. — J. M. Pearson, I. Guymer, J. R. West, and L. E. Coates; 128(1), 10-20 (2002).

Risk Assessment of some Revetments in Southwest Wales, United Kingdom. — Can Elmar Balas and Lale Balas; 128(5), 216-23 (2002).

Washington

Wave Pressure Gauge Analysis with Current. — Jane McKee Smith; 128(6), 271-5 (2002).

Water circulation

Modeling Winter Circulation in Lake Okeechobee, Florida. — Kang-Ren Jin, Zhen-Gang Ji, and John H. Hamrick; 128(3), 114-25 (2002).

Water levels

Water Level Observations and Short-Term Predictions Including Meteorological Events for Entrance of Galveston Bay, Texas. — Daniel T. Cox, Philippe Tissot, and Patrick Michaud; 128(1), 21-9 (2002).

Water waves

Diffraction by a Gap in an Infinite Permeable Breakwater. — M. K. Bowen and P. McIver; 128(1), 2-9 (2002).

Water Waves in Harbor Areas: Appreciation of Open Boundary Conditions. — Philippe Sergent, François Ropert, Olivier Orcel, Menouar Houari, Denis Duhamel, and Gouri Dhatt; 128(5), 184-9 (2002).

Wave crests

Least Upper Bound Distribution for Nonlinear Wave Crests. — M. Aziz Tayfun and Jasem Al-Humoud; 128(4), 144-51 (2002).

Wave diffraction

Diffraction by a Gap in an Infinite Permeable Breakwater. — M. K. Bowen and P. McIver; 128(1), 2-9 (2002).

Wave dispersion

Analysis of Wave Directional Spreading Using Neural Networks. — M. C. Deo, D. S. Gondane, and V. Sanil Kumar; 128(1), 30-7 (2002).

Finite-Volume Models for Unidirectional, Nonlinear, Dispersive Waves. — Scott F. Bradford and Brett F. Sanders; 128(4), 173-82 (2002).

Wave energy

Analysis of Wave Directional Spreading Using Neural Networks. — M. C. Deo, D. S. Gondane, and V. Sanil Kumar; 128(1), 30-7 (2002).

Wave height

Effect of Wave Height on Cross-Shore Solute Mixing. — J. M. Pearson, I. Guymer, J. R. West, and L. E. Coates; 128(1), 10-20 (2002).

Wave Pressure Gauge Analysis with Current. — Jane McKee Smith; 128(6), 271-5 (2002).

Wave pressures

Analytical Model for Response of Seabed beneath Composite Breakwater to Wave. — Takahiro Kumagai and Mostafa A. Foda; 128(2), 62-71 (2002).

Wave Pressure Gauge Analysis with Current. — Jane McKee Smith; 128(6), 271-5 (2002).

Wave propagation

Finite-Volume Models for Unidirectional, Nonlinear, Dispersive Waves. — Scott F. Bradford and Brett F. Sanders; 128(4), 173-82 (2002).

Propagation of Water Waves over Rigid Rippled Beds. — Ching-Jer Huang and Chih-Ming Dong; 128(5), 190-201 (2002).

Wave runup

Surf and Swash Zone Morphology Evolution Induced by Nonlinear Waves. — Theophanis V. Karambas and Christopher Koutitas; 128(3), 102-13 (2002).

Waves

Simplified Solutions for Wave-Induced Response of Anisotropic Seabed. — Masatoshi Yuhi and Hajime Ishida; 128(1), 46-50 (2002).

Wetlands

Lagoon Restoration near Ephemeral River Mouth. — Howard H. Chang, Daniel Pearson, and Samir Tanious; 128(2), 79-87 (2002).

Author Index

Al-Humoud, Jasem
Least Upper Bound Distribution for Nonlinear Wave Crests. —M. Aziz Tayfun and Jasem Al-Humoud; 128(4), 144-51 (2002).

Balas, Can Elmar
Reliability-Based Risk Assessment in Coastal Projects: Case Study in Turkey. —Can Elmar Balas and Aysen Ergin; 128(2), 52-61 (2002).
Risk Assessment of some Revetments in Southwest Wales, United Kingdom. —Can Elmar Balas and Lale Balas; 128(5), 216-23 (2002).

Balas, Lale
Risk Assessment of some Revetments in Southwest Wales, United Kingdom. —Can Elmar Balas and Lale Balas; 128(5), 216-23 (2002).

Bauer, Bernard O.
Estimating Boat-Wake-Induced Levee Erosion using Sediment Suspension Measurements. —Bernard O. Bauer, Mark S. Lorang, and Douglas J. Sherman; 128(4), 152-62 (2002).

Bowen, M. K.
Diffraction by a Gap in an Infinite Permeable Breakwater. — M. K. Bowen and P. McIver; 128(1), 2-9 (2002).

Bradford, Scott F.
Finite-Volume Models for Unidirectional, Nonlinear, Dispersive Waves. —Scott F. Bradford and Brett F. Sanders; 128(4), 173-82 (2002).

Chang, Howard H.
Lagoon Restoration near Ephemeral River Mouth. —Howard H. Chang, Daniel Pearson, and Samir Tanious; 128(2), 79-87 (2002).

Coates, L. E.
Effect of Wave Height on Cross-Shore Solute Mixing. — J. M. Pearson, I. Guymer, J. R. West, and L. E. Coates; 128(1), 10-20 (2002).

Cox, Daniel T.
Water Level Observations and Short-Term Predictions Including Meteorological Events for Entrance of Galveston Bay, Texas. —Daniel T. Cox, Philippe Tissot, and Patrick Michaud; 128(1), 21-9 (2002).

Deo, M. C.
Analysis of Wave Directional Spreading Using Neural Networks. —M. C. Deo, D. S. Gondane, and V. Sanil Kumar; 128(1), 30-7 (2002).

Dhatt, Gouri
Water Waves in Harbor Areas: Appreciation of Open Boundary Conditions. —Philippe Sergent, François Ropert, Olivier Orcel, Menouar Houari, Denis Duhamel, and Gouri Dhatt; 128(5), 184-9 (2002).

Dong, Chih-Ming
Propagation of Water Waves over Rigid Rippled Beds. — Ching-Jer Huang and Chih-Ming Dong; 128(5), 190-201 (2002).

Duhamel, Denis
Water Waves in Harbor Areas: Appreciation of Open Boundary Conditions. — Philippe Sergent, François Ropert, Olivier Orcel, Menouar Houari, Denis Duhamel, and Gouri Dhatt; 128(5), 184-9 (2002).

Ergin, Aysen
Reliability-Based Risk Assessment in Coastal Projects: Case Study in Turkey. — Can Elmar Balas and Aysen Ergin; 128(2), 52-61 (2002).

Fjeld, Svein
Berm Breakwaters: Stone Breaking Strength. — Alf Tørum, Stein R. Krogh, and Svein Fjeld; 128(4), 163-72 (2002).

Foda, Mostafa A.
Analytical Model for Response of Seabed beneath Composite Breakwater to Wave. — Takahiro Kumagai and Mostafa A. Foda; 128(2), 62-71 (2002).

Glenn, Scott M.
Predicting Bed Scour on the Continental Shelf during Hurricane Andrew. — Timothy R. Keen and Scott M. Glenn; 128(6), 249-57 (2002).

Gondane, D. S.
Analysis of Wave Directional Spreading Using Neural Networks. —M. C. Deo, D. S. Gondane, and V. Sanil Kumar; 128(1), 30-7 (2002).

Guymer, I.
Effect of Wave Height on Cross-Shore Solute Mixing. — J. M. Pearson, I. Guymer, J. R. West, and L. E. Coates; 128(1), 10-20 (2002).

Hall, Kevin R.
Review of *Probabilistic design methods for vertical breakwaters* by H. Oumeraci, A. Kortenhaus, W. Allsop, M. de Groot, R. Crouch, H. Vrijling, and H. Voortman. —Kevin R. Hall; 128(5), 224-5 (2002).

Hamrick, John H.
Modeling Winter Circulation in Lake Okeechobee, Florida. —Kang-Ren Jin, Zhen-Gang Ji, and John H. Hamrick; 128(3), 114-25 (2002).

Hong, S. G.
Numerical and Experimental Study of Offshore Pipeline Stability in Trench. —C. H. Jo, S. B. Lee, Y. S. Shin, S. G. Hong, and K. H. Min; 128(6), 258-70 (2002).

Houari, Menouar
Water Waves in Harbor Areas: Appreciation of Open Boundary Conditions. —Philippe Sergent, François Ropert, Olivier Orcel, Menouar Houari, Denis Duhamel, and Gouri Dhatt; 128(5), 184-9 (2002).

Huang, Ching-Jer
Propagation of Water Waves over Rigid Rippled Beds. — Ching-Jer Huang and Chih-Ming Dong; 128(5), 190-201 (2002).

Hughes, Steven
Review of *Introduction to bed, bank and shore protection* by Gerrit J. Schiereck. — Steven Hughes; 128(2), 99-100 (2002).

Ishida, Hajime
Simplified Solutions for Wave-Induced Response of Anisotropic Seabed. — Masatoshi Yuhi and Hajime Ishida; 128(1), 46-50 (2002).

Jansen, Henk
Modeling Nearshore Bed Topography with Principal Oscillation Patterns. — Grzegorz Różyński and Henk Jansen; 128(5), 202-15 (2002).

Ji, Zhen-Gang
Modeling Winter Circulation in Lake Okeechobee, Florida. — Kang-Ren Jin, Zhen-Gang Ji, and John H. Hamrick; 128(3), 114-25 (2002).

Jin, Kang-Ren
Modeling Winter Circulation in Lake Okeechobee, Florida. — Kang-Ren Jin, Zhen-Gang Ji, and John H. Hamrick; 128(3), 114-25 (2002).

Jo, C. H.
Numerical and Experimental Study of Offshore Pipeline Stability in Trench. — C. H. Jo, S. B. Lee, Y. S. Shin, S. G. Hong, and K. H. Min; 128(6), 258-70 (2002).

Karambas, Theophanis V.
Surf and Swash Zone Morphology Evolution Induced by Nonlinear Waves. —Theophanis V. Karambas and Christopher Koutitas; 128(3), 102-13 (2002).

Keen, Timothy R.
Predicting Bed Scour on the Continental Shelf during Hurricane Andrew. —Timothy R. Keen and Scott M. Glenn; 128(6), 249-57 (2002).

Ker, Wen-Kuei
Interaction of Waves and a Porous Tension Leg Platform. — Wen-Kuei Ker and Chung-Pan Lee; 128(2), 88-95 (2002).

Kobayashi, Nobuhisa
Sand Suspension and Transport on Equilibrium Beach. — Nobuhisa Kobayashi and Yukiko Tega; 128(6), 238-48 (2002).

Koutitas, Christopher
Surf and Swash Zone Morphology Evolution Induced by Nonlinear Waves. —Theophanis V. Karambas and Christopher Koutitas; 128(3), 102-13 (2002).

Kraus, Nicholas C.
Review of *Coastal processes in tideless seas* by R. D. Kos'yan, N. V. Pykhov, and B. L. Edge. —Nicholas C. Kraus; 128(3), 142 (2002).

Krogh, Stein R.
Berm Breakwaters: Stone Breaking Strength. —Alf Tørum, Stein R. Krogh, and Svein Fjeld; 128(4), 163-72 (2002).

Kumagai, Takahiro
Analytical Model for Response of Seabed beneath Composite Breakwater to Wave. — Takahiro Kumagai and Mostafa A. Foda; 128(2), 62-71 (2002).

Kwak, Kyu-Seok
Simulation Study of Container Terminal Performance. — Ki-Chan Nam, Kyu-Seok Kwak, and Myoung-Suk Yu; 128(3), 126-32 (2002).

Lee, Chung-Pan
Interaction of Waves and a Porous Tension Leg Platform. — Wen-Kuei Ker and Chung-Pan Lee; 128(2), 88-95 (2002).

Lee, S. B.
Numerical and Experimental Study of Offshore Pipeline Stability in Trench. — C. H. Jo, S. B. Lee, Y. S. Shin, S. G. Hong, and K. H. Min; 128(6), 258-70 (2002).

Lorang, Mark S.
Estimating Boat-Wake-Induced Levee Erosion using Sediment Suspension Measurements. — Bernard O. Bauer, Mark S. Lorang, and Douglas J. Sherman; 128(4), 152-62 (2002).

McIver, P.
Diffraction by a Gap in an Infinite Permeable Breakwater. — M. K. Bowen and P. McIver; 128(1), 2-9 (2002).

Michaud, Patrick
Water Level Observations and Short-Term Predictions Including Meteorological Events for Entrance of Galveston Bay, Texas. — Daniel T. Cox, Philippe Tissot, and Patrick Michaud; 128(1), 21-9 (2002).

Min, K. H.
Numerical and Experimental Study of Offshore Pipeline Stability in Trench. — C. H. Jo, S. B. Lee, Y. S. Shin, S. G. Hong, and K. H. Min; 128(6), 258-70 (2002).

Nam, Ki-Chan
Simulation Study of Container Terminal Performance. — Ki-Chan Nam, Kyu-Seok Kwak, and Myoung-Suk Yu; 128(3), 126-32 (2002).

Orcel, Olivier
Water Waves in Harbor Areas: Appreciation of Open Boundary Conditions. — Philippe Sergent, François Ropert, Olivier Orcel, Menouar Houari, Denis Duhamel, and Gouri Dhatt; 128(5), 184-9 (2002).

Pearson, Daniel
Lagoon Restoration near Ephemeral River Mouth. — Howard H. Chang, Daniel Pearson, and Samir Tanious; 128(2), 79-87 (2002).

Pearson, J. M.
Effect of Wave Height on Cross-Shore Solute Mixing. — J. M. Pearson, I. Guymer, J. R. West, and L. E. Coates; 128(1), 10-20 (2002).

Ropert, François
Water Waves in Harbor Areas: Appreciation of Open Boundary Conditions. — Philippe Sergent, François Ropert, Olivier Orcel, Menouar Houari, Denis Duhamel, and Gouri Dhatt; 128(5), 184-9 (2002).

Różyński, Grzegorz
Modeling Nearshore Bed Topography with Principal Oscillation Patterns. — Grzegorz Różyński and Henk Jansen; 128(5), 202-15 (2002).

Sana, Ahmad
Two-Equation Turbulence Models for Smooth Oscillatory Boundary Layers. — Ahmad Sana and Eng Ban Shuy; 128(1), 38-45 (2002).

Sanders, Brett F.
Finite-Volume Models for Unidirectional, Nonlinear, Dispersive Waves. — Scott F. Bradford and Brett F. Sanders; 128(4), 173-82 (2002).

Sanil Kumar, V.
Analysis of Wave Directional Spreading Using Neural Networks. — M. C. Deo, D. S. Gondane, and V. Sanil Kumar; 128(1), 30-7 (2002).

Sergent, Philippe
Water Waves in Harbor Areas: Appreciation of Open Boundary Conditions. — Philippe Sergent, François Ropert, Olivier Orcel, Menouar Houari, Denis Duhamel, and Gouri Dhatt; 128(5), 184-9 (2002).

Seymour, Richard
Detection of Breaking in a Deep Water Wave Record. — Charles-Alexandre Zimmermann and Richard Seymour; 128(2), 72-8 (2002).

Sherman, Douglas J.
Estimating Boat-Wake-Induced Levee Erosion using Sediment Suspension Measurements. — Bernard O. Bauer, Mark S. Lorang, and Douglas J. Sherman; 128(4), 152-62 (2002).

Shin, Y. S.
Numerical and Experimental Study of Offshore Pipeline Stability in Trench. — C. H. Jo, S. B. Lee, Y. S. Shin, S. G. Hong, and K. H. Min; 128(6), 258-70 (2002).

Shuy, Eng Ban
Two-Equation Turbulence Models for Smooth Oscillatory Boundary Layers. — Ahmad Sana and Eng Ban Shuy; 128(1), 38-45 (2002).

Sleath, John F. A.
Pickup from Rippled Beds in Oscillatory Flow. — John F. A. Sleath and S. Wallbridge; 128(6), 228-37 (2002).

Smith, Jane McKee
Wave Pressure Gauge Analysis with Current. — Jane McKee Smith; 128(6), 271-5 (2002).

Tanious, Samir
Lagoon Restoration near Ephemeral River Mouth. — Howard H. Chang, Daniel Pearson, and Samir Tanious; 128(2), 79-87 (2002).

Tayfun, M. Aziz
Least Upper Bound Distribution for Nonlinear Wave Crests. — M. Aziz Tayfun and Jasem Al-Humoud; 128(4), 144-51 (2002).

Tega, Yukiko
Sand Suspension and Transport on Equilibrium Beach. — Nobuhisa Kobayashi and Yukiko Tega; 128(6), 238-48 (2002).

Tissot, Philippe
Water Level Observations and Short-Term Predictions Including Meteorological Events for Entrance of Galveston Bay, Texas. — Daniel T. Cox, Philippe Tissot, and Patrick Michaud; 128(1), 21-9 (2002).

Tørum, Alf
Berm Breakwaters: Stone Breaking Strength. — Alf Tørum, Stein R. Krogh, and Svein Fjeld; 128(4), 163-72 (2002).

Umeyama, Motohiko
Experimental and Theoretical Analyses of Internal Waves of Finite Amplitude. — Motohiko Umeyama; 128(3), 133-41 (2002).

Wallbridge, S.
Pickup from Rippled Beds in Oscillatory Flow. — John F. A. Sleath and S. Wallbridge; 128(6), 228-37 (2002).

West, J. R.
Effect of Wave Height on Cross-Shore Solute Mixing. — J. M. Pearson, I. Guymer, J. R. West, and L. E. Coates; 128(1), 10-20 (2002).

Winterwerp, J. C.
Near-Field Behavior of Dredging Spill in Shallow Water. — J. C. Winterwerp; 128(2), 96-8 (2002).

Yu, Myoung-Suk
Simulation Study of Container Terminal Performance. — Ki-Chan Nam, Kyu-Seok Kwak, and Myoung-Suk Yu; 128(3), 126-32 (2002).

Yuhi, Masatoshi
Simplified Solutions for Wave-Induced Response of Anisotropic Seabed. — Masatoshi Yuhi and Hajime Ishida; 128(1), 46-50 (2002).

Zimmermann, Charles-Alexandre
Detection of Breaking in a Deep Water Wave Record. — Charles-Alexandre Zimmermann and Richard Seymour; 128(2), 72-8 (2002).
